

# Friends of the Trees Botanicals 2021 Catalog Fresh & Dry Herbs

We are based on the Olympic Peninsula, Pacific Northwest, North America. We offer a large variety of botanicals that we personally cultivate and wildcraft. Our wildcrafted botanicals are sustainably gathered to maintain healthy plant populations. We wildcraft in Washington, Idaho and Northwest Montana.

**Our primary focus remains fresh plant material. Customers are encouraged to order well in advance because we primarily produce orders on a custom basis. We typically take most of our orders for the year between January - April, and fill them on a "first come first served" basis. Because of our small business scale, we can only produce so much of a given herb, and therefore cannot always fill last-minute requests.**

**A brief description of our growing practices:** The herb plantings at Friends of the Trees Botanicals are agroforestry systems, which include a wide diversity of trees, shrubs, hedgerows, medicinal herbs, berries, vegetables and culinary herbs. Michael Pilarski has been farming organically since 1972. We are in the process of getting Organic Certification this year. Currently our botanicals are not certified organic, but they are grown with NO chemical fertilizers or pesticides. We use cultural practices and natural fertilizers to build soil. Our goal is healthy plants, a healthy ecosystem and good yields. We have a reputation for delivering the highest quality fresh and dried botanicals available.

Michael Pilarski teaches around the Pacific Northwest on farming and wildcrafting medicinal plants, permaculture, agroforestry, earth repair and related topics as well as leading plant walks. Check out our website and Facebook for his schedule. Would you like Michael to give a workshop in your area or speak at your event? Please reach out. He also offers species surveys for property owners.

## **2021 UPDATE:**

Friends of the Trees Botanicals has been growing for 26 years! We love what we do! Last year was our biggest year for production and sales yet. We are a small crew- Michael "Skeeter" Pilarski, Ashley Kehl, Anna Pallotta and some seasonal interns and occasional volunteers along the way. Our herb farm is located in Chimacum Washington at the Finnriver Farm & Cidery. Please come check it out if you're in the area. We are in the process of getting Organic Certification this year. We will be selling herb divisions in the spring. Seed production will increase. Thank you for your support of our business over the years, we look forward to filling your herbal needs in the years to come.
